

McALLISTER & QUINN
Winning Strategies. Proven Track Record.

McAllister & Quinn, LLC

Healthcare Research Analyst

McAllister & Quinn is a federal and foundation grants consulting and government relations firm headquartered in Washington, D.C. We offer our 180+ clients a unique blend of comprehensive grant consulting, strategic advising, and government relations services. Specifically, McAllister & Quinn provides our clients the knowledge and skills to seek federal and private foundation grant opportunities that strategically fit their organization's priorities. We support clients' efforts in crafting competitive applications; developing or increasing funding streams through the congressional appropriations process; and facilitating academic, public-private and international partnerships that further their mission.

Research Analyst

The Research Analyst (RA) will support the execution of grant consulting and strategic activities for clients within the Healthcare practice area. The RA will provide research support to the client handlers within the practice and operate as part of the larger team. The RA will be expected to deliver quality results with strong attention to detail in a fast-paced environment with fixed deadlines.

Prior knowledge/experience in job responsibilities are not required, on-the-job training and onboarding will be provided. Specific responsibilities include, but are not limited to:

- Report to and work directly with Managing Directors to assist with research, development, and execution of grant seeking strategies for clients.
- Provide research, and agency monitoring support for the team, including client and project management.
- Provide administrative support for the team, including client and project management, maintaining organized and accurate records, scheduling / logistics and assisting with document management and maintenance across practice areas.
- Assist with federal market analyses of intellectual property portfolios including agency interest in technologies, investigator team capabilities and academic/industry collaboration opportunities.
- Prospect for grant opportunities and support tailored strategic research plans for clients based on their interests.
- Obtain and retain working knowledge of the most client-relevant federal grant programs across agencies such as HRSA, NIH, AHRQ, SAMHSA, CDC, PCORI, USDA, DOD, and others.
- Assist in the creation and delivery of grantsmanship workshops, webinars, and other trainings.
- Conduct and summarize comprehensive scientific literature searches / reviews to support team members with client project ideation and ongoing project refinement.
- Support client onboarding/reboarding by researching relevant federal funding opportunities that align with client priorities and needs.
- Assist with responding to requests for proposals and researching business development leads.

*This description reflects M&Q leadership's assignment of essential functions; it does not proscribe or restrict the tasks that may be assigned.
